Relevant Experience

- **Employee Management System**   **Sep-2024**

  Developed a comprehensive Employee Management System as a sole developer using HTML, CSS, React.js, Vite.js, Bootstrap, Node.js, Express.js, and MySQL.The system facilitates streamlined employee data management, including tasks such as employee tracking attendance, and managing roles and salaries. It features a responsive user interface, secure data handling, and RESTful APIs to enhance administrative efficiency and improve overall business operations.

  I used React.js, vite.js and bootstrap for the frontend.

  Node.js and Express.js for the backend.

  Mysql for data management.
